

Configuration examples for the embedded Finite State Machine feature

Features

- Configuration examples for the Finite State Machine feature
- Available in the STMicroelectronics public GitHub repository

Description

Configuration examples for the Finite State Machine feature available on some STMicroelectronics sensors are provided in the STMicroelectronics public GitHub repository.

The repository contains examples in both Unico GUI Configuration Files (.ucf) and C header (.h) formats.

Further details are available in the README section of the GitHub repository.
