

## AutoDevKit component explorer and project creator APP for Android and iOS

### Features

- Find the components you need from the comprehensive AutoDevKit library
- Automatic project generation for SPC5Studio IDE
- Option to generate a shopping cart with all boards associated with your project
- Support request through the APP available
- Quick access to latest AutoDevKit news and updates
- Available on Android and iOS app stores

### Description

This AutoDevKit Explorer helps you navigate and access to our comprehensive range of hardware and software resources in the AutoDevKit Ecosystem.

You can select the AutoDevKit components for your application of interest and proceed to generate the SPC5STUDIO IDE project, which can be sent to you by e-mail.

There is also an option to receive a separate e-mail with a shopping cart for all the hardware components required for your project.

Product summary	
Code generator, quick resource configurator and Eclipse development environment for SPC5 MCUs	SPC5-STUDIO
AutoDevKit library plugin for SPC5-STUDIO	STSW-AUTODEVKIT
